not helpful to the advocates of higher prices.

A significant development is the heavy retirement of note circuitation, which the banks have entered upon, Deposits for that purpose with the Subtreasury are largely responsible for the week's large gain by that institution, which reached \$6,138,000, During Januacy, current redemption of bank hotes by the Treasury were the largest on record. The volume of current redemptions still runs very large, but not up to the January average. Evidently the banks are no longer sole to keep their notes in circulation, and are retiring them. The movement is noteworthy, as being unaccompanied by any scarcity or price of the government bond issues for Panama Canal construction will give the situation an added interest,

Eonds were firm. Total sales, par value, \$2,845,000, United States bonds were unchanged on call. Total sales to-day were \$55,500 shares.

CHICAGO GRAIN MARKET.
Chicago, Ill., February 21Urgent demand
for July wheat caused an advance late in
the session, prices moving up 2120 2%c. after
dragging heavily. Corn was weak most of
the day, although it responded to the
strength in wheat. Oats kept within nar-
row limits, showing neither the weakness
of corn nor the strength of wheat, while
provisions ruel higher all day under good
demand and finished from 1/2 @ 17/2c. up.
